SAVING THE STORE BY SUMMARY.

We have usually called attention to the new and improved method of Public Financial election openly and publicly dismissing all [illegible] growing out [illegible] certain other [illegible] by proposes to commence an aggressive campaign [illegible] financial interference in the local affairs of the States. 2. Universal amnesty. 3. Opposition to the assumption of State debts. 4. Opposition to protective tariffs. 5. Payment of the public debt in greenbacks. 6. Repeal of the National Banking system.

That portion of the Ohio Democracy which clings to the personal fortunes of Mr. Pendleton, now that Vallandigham is no longer alive to press his hard money doctrines, will endeavor to make the payment of the debt in greenbacks the most conspicuous element of the campaign. We trust that no Republican will plan any obstacles in the way of having gold terms made a prominent issue in the Democracy next March. It is an important question, involving the safety of every dollar in the hands of the people. Even in the banking and financial world there is a wide difference of opinion as to the ultimate effect of the payment of the debt in greenbacks,
